

CERTIFIED **DATA SCIENCE, DATA ANALYTICS** **& MACHINE LEARNING** **PROGRAM**

Industry Ready Course Content • Instructor Led Training • 20+ Projects & Case Studies
• 25+ Assignments • Internships • Job Placement Opportunities

[DATA SCIENCE] • [MACHINE LEARNING] • [DATA ANALYTICS] • [DEEP LEARNING]
[TABLEAU] • [MICROSOFT POWER BI] • [PYTHON] • [ARTIFICIAL INTELLIGENCE]

Enrollment Path

1

EXPERT CONSULTATION

Our course experts will understand your needs and guide you in the right direction.

CONCEPT

Understanding the Modules

2

3

PAY & ENROLL

We will Finish all the accounting formalities.

ONBOARDING TEAM TAKEOVER

We provide guidance for the material and set you up for the course

4

5

LOGIN & BOOK

With your dedicated access you can login, book and start attending your live interactive sessions.

**BECOME A DATA SCIENCE
PROFESSIONAL**

Certified Data Science, Data Analytics & Machine Learning Program

MODULE 1

FUNDAMENTAL OF PYTHON

- Variables, Data Type, Strings, Operators, Flow control (for, if-else, while)
- Strings, Functions, List, Tuples, Dictionary
- **Number of Case Studies - 2**

MODULE 2

PYTHON FOR DATA SCIENCE

- NumPy module: one-, two- and n-dimensional arrays in NumPy.
- Apply some linear algebra operations to n-dimensional arrays without using for-loops using NumPy
- Pandas modules: creating, loading and selecting data using DataFrames
- Modifying DataFrames, Aggregation in Pandas
- Implementation on different data set related to multiple domain industry
- **Number of Case Studies - 3**

MODULE 3

DATA VISUALIZATION WITH PYTHON

- Matplotlib and Seaborn modules
- Quantitative comparisons and statistical visualizations
- Bar Chart, stacked chart, Histogram, Statistical plotting, Box plots
- Plotting time-series
- Scatter plotting
- **Number of Case Studies - 3**

Certified Data Science, Data Analytics & Machine Learning Program

MODULE 4

DATA ANALYTICS (EXPLORATORY DATA ANALYSIS)

- Data Cleansing (Dealing with Missing Data, Outlier Detection)
- Sampling Techniques (Balanced, Stratified,...)
- Data Partitioning (Create Training + Validation + Test Data Set)
- Transformations (Normalization, Standardization, Scaling, Pivoting)
- Data Replacement (Cutting, Splitting, Merging,...)
- Imputation (Replacement of Missing Observations with Statistical Algorithms)
- **Number of Case Studies - 5**

MODULE 5

DATA ANALYTICS USING POWER BI & TABLEAU

- Data Transformation from analysis to visualisation using relationships and models using Power BI & Tableau
- Will be covered with at least 12 different sort of data sets
- **Number of Case Studies - 6**

Certified Data Science, Data Analytics & Machine Learning Program

MODULE 6

STATISTICS, MACHINE LEARNING AND REGRESSION

- Basic statistical Operations - mean, median, variance, kurtosis
- Correlation, standard deviation, max, min, sum, colinearity

MACHINE LEARNING

- Introduction to Machine Learning
- Training Dataset, Testing dataset, Cross validation
- Performance Evaluation Parameters in Machine Learning - Confusion Matrix
- Precision, Recall, F-score, Accuracy

SUPERVISED MACHINE LEARNING

- Supervised Machine Learning- Support vector Machine, Random Forest, Decision Trees
- Naïve Bayes, K - nearest Neighbors algorithm will be covered
- Applications like - Classification, Recognition, Detection will be implemented from scratch
- **Number of Case Studies - 3**

UNSUPERVISED MACHINE LEARNING

- Unsupervised Machine Learning - Kmeans, Fuzzy-Cmean, Dbscan algorithms
- Application Like -Segmentation , clustering, recommendation system will be implemented
- **Number of Case Studies - 3**

Certified Data Science, Data Analytics & Machine Learning Program

MODULE 7

FEATURE ENGINEERING AND FEATURE SELECTION

- PCA algorithms and Coliearity and correlation in attributs will be discussed as Feature selection steps in Training process of Machine learning models

MODULE 8

INTRODUCTION TO ARTIFICIAL INTELLIGENCE (CONVOLUTIONAL NEURAL NETWORK)

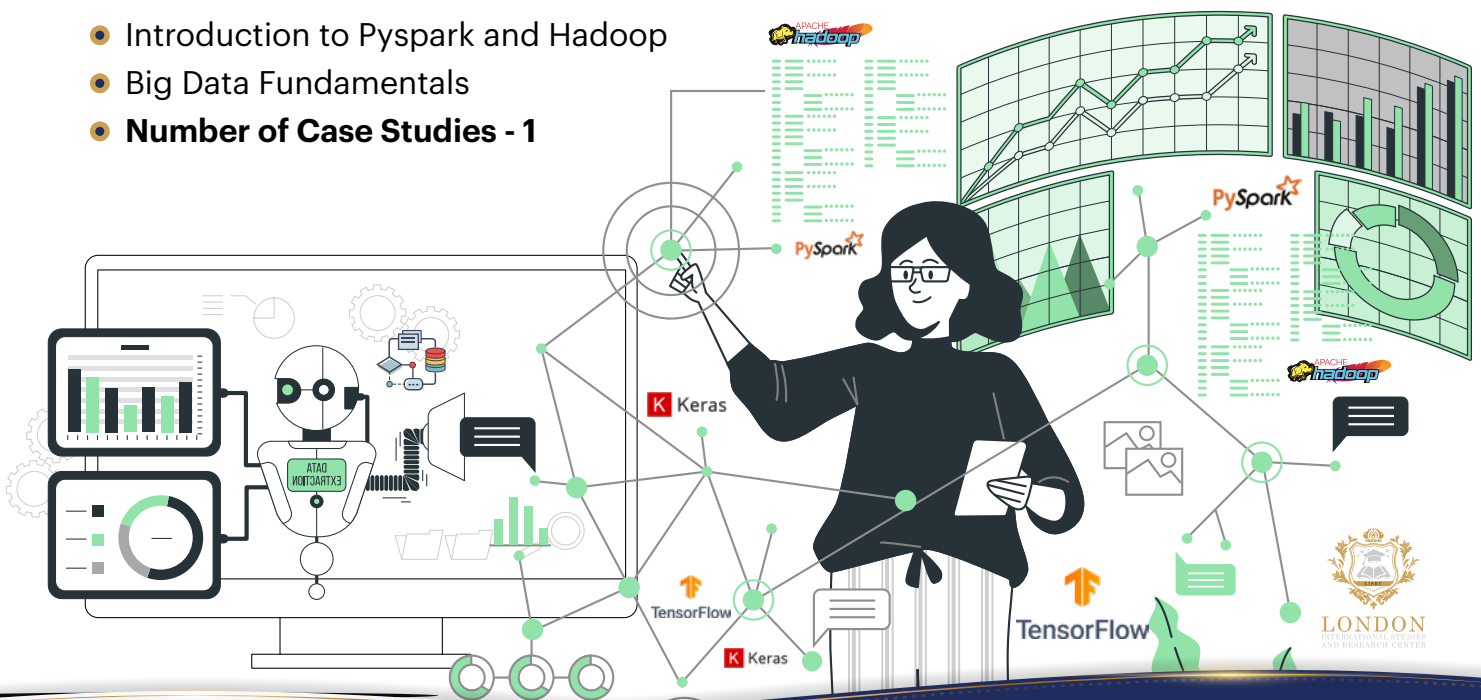

- Deep learning introduction
- Introduction to TensorFlow and Keras
- Neural Networks
- Convolutional Neural Network
- Application like Realtime Object recognition with higher accuracy will be implemented
- **Number of Case Studies - 2**

MODULE 9

INTRODUCTION TO BIG DATA

- Introduction to Pyspark and Hadoop
- Big Data Fundamentals
- **Number of Case Studies - 1**

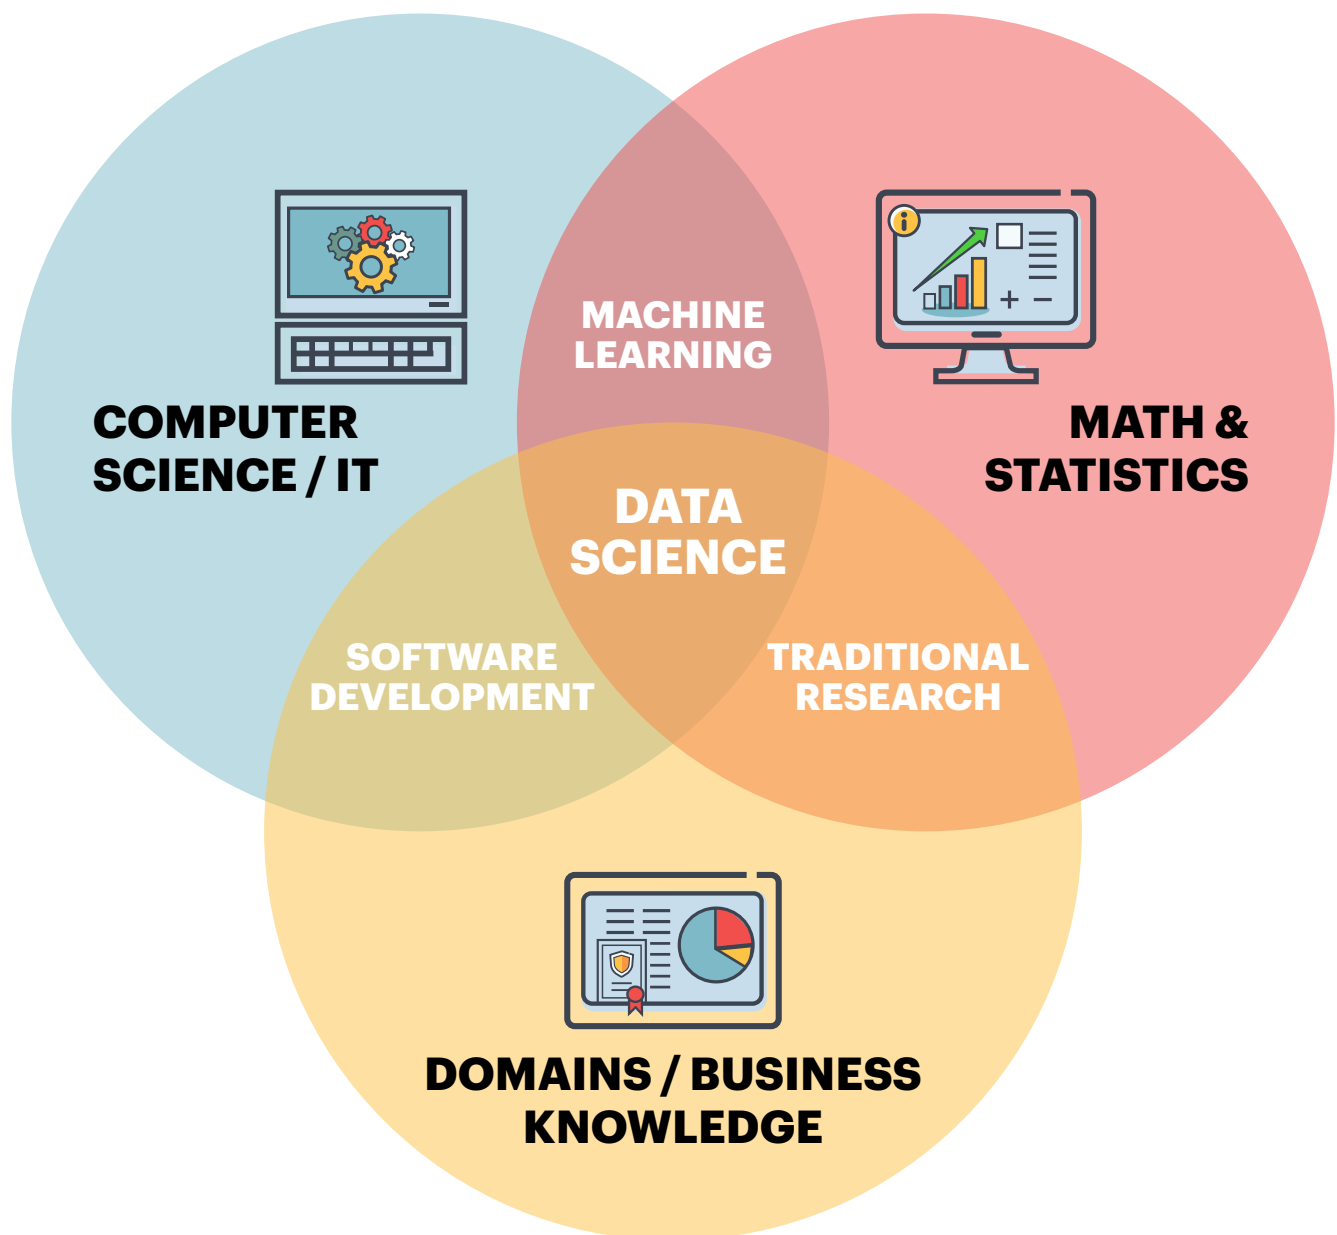

Tools / Frameworks / Libraries

- **Basic Scripting Skills:** Python Programming 3.x, SQL
- **IDE Tools Usage:** Anaconda(Jupyter Notebook/Spyder), PyCharm IDE, Google Colaboratory, Jupyter Notebook, GitHub, Tableau, REPL Online, Visual Studio Code.
- **Modern Web Automation Frameworks:** BeautifulSoup, Selenium
- **Data Analytics Libraries:** Pandas, Numpy, Seaborn, Matplotlib, ScikitLearn, Pandas-Profiling, Koalas, Pyspark
- **Modern Database Integrations:** MySQL, MS-SQL, Oracle SQL
- **Modern Computer Vision Libraries:** OpenCV, Scikit-image, Pillow
- **Modern Deep Learning Frameworks:** TensorFlow 2.x(Keras), PyTorch
- **Modern Automated Machine Learning Libraries:** PyCaret

Structure & Scope

Applications & Use Cases of Data Science in Real Life Industries

Certified Data Science, Data Analytics & Machine Learning Program

**BUSINESS
INTELLIGENCE FOR
SMART DECISIONS**

**MAKING
BETTER PRODUCT**

**MANAGING
BUSINESS
EFFICIENTLY**

DATA SCIENCE IN SALES AND MARKETING

**PREDICTIVE
ANALYSIS TO
PREDICT OUTCOMES**

**LEVERAGING DATA
FOR BUSINESS
DECISION**

**ASSESSING
BUSINESS
DECISIONS**

**AUTOMATIING
RECRUITING
PROCESS**

**RISK
ANALYTICS**

**REAL TIME
ANALYTICS**

**CONSUMER
ANALYTICS**

SECURITY

**FRAUD
DETECTION**

DATA SCIENCE IN FINANCE INDUSTRY

**PROVIDING
PERSONALIZED
SERVICES**

**CUSTOMER
DATA
MANAGEMENT**

**ALGORITHMIC
TRADING**

**PROCESS
AUTOMATION**

Certified Data Science, Data Analytics & Machine Learning Program

**RISK
MODELING**

**FRAUD
DETECTION**

**CUSTOMER
LIFETIME VALUE**

DATA SCIENCE IN BANKING

**CUSTOMER
SEGMENTATION**

**RECOMMENDATION
ENGINES**

**REAL-TIME
PREDICTIVE
ANALYSIS**

**DEMAND
ANALYTICS**

**FINISHED
INVENTORY
OPTIMIZATION**

**NETWORK
PLANNING**

DATA SCIENCE IN SUPPLY CHAIN & LOGISTICS

**REPLENISHMENT
PLANNING
ANALYTICS**

**PROCUREMENT
ANALYTICS**

**TRANSPORTATION
ANALYTICS**

Certified Data Science, Data Analytics & Machine Learning Program

**PREDICTIVE
MAINTENANCE**

**ANOMALY
DETECTION**

CUSTOMISATION

**DEMAND
FORECASTING**

DATA SCIENCE IN MANUFACTURING

**OFFER
PREMIUM
SERVICES**

**NEW REVENUE
STREAMS**

**MAINTENANCE
SCHEDULING**

**PURCHASE ORDER
AUTOMATION**

RETENTION

RECRUITING

DATA SCIENCE IN HR ANALYTICS

**EMPLOYEE
PERFORMANCE**

COMPENSATION

**TRAINING
AND
DEVELOPMENT**

Certified Data Science, Data Analytics & Machine Learning Program

**VIRTUAL ASSISTANCE
FOR PATIENTS &
CUSTOMER SUPPORT**

**DRUG DISCOVERY
VIA
ACCUMULATED DATA**

**GENETICS
ANALYSIS &
GENOMIC RESEARCH**

DATA SCIENCE IN HEALTHCARE

**MEDICAL
IMAGING &
DIAGNOSTICS**

**TRACK & PREVENT
DISEASES VIA
PREDICTIVE MEDICINE**

**MONITOR
PATIENT HEALTH**

**PREDICTIVE
ANALYSIS**

**SOCIAL-
EMOTIONAL
SKILLS**

**MEASURING
INSTRUCTOR
PERFORMANCE**

DATA SCIENCE IN EDUCATION

**MONITORING
STUDENT
REQUIREMENTS**

**INNOVATING
THE
CURRICULUM**

Certified Data Science, Data Analytics & Machine Learning Program

Certifications

- London CPD certification - United Kingdom - a British territory – with credit points
- Govt. of Dubai - KHDA certification (Recognized all over UAE by Ministry of Education)
- London Chamber of Commerce Sealed Certification (This certificate will be arriving at your UAE address via ROYAL MAIL of UK)

Certified Data Science, Data Analytics & Machine Learning Program
